SAFORA MIRZAEE

JUNIOR FRONT-END DEVELOPER

saforamirzaee19@gmail.com | +93 0791717268 | Kabul, Afghanistan

PROFESSIONAL SUMMARY

Motivated and detail-oriented Junior Front-End Developer with a strong foundation in HTML5, CSS3, JavaScript, React, Bootstrap, and Tailwind CSS, gained through hands-on personal and practice projects. Passionate about building clean, responsive, and user-friendly websites, and committed to writing well-structured and maintainable code. Comfortable using Git and GitHub for version control and eager to keep learning modern front-end tools and best practices. Currently seeking an internship or entry-level Front-End Developer position where I can apply my skills, contribute to real-world projects, and grow within a professional development team.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Tailwind CSS, Bootstrap, Responsive Web Design

Tools: Git, GitHub, VS Code, Cursor

Other Skills: DOM Manipulation, Basic JavaScript Programming, UI Design Fundamentals

PROJECTS

Personal Portfolio Website

A fully responsive personal portfolio built to showcase my skills, projects, and contact information with a clean, modern UI.

Technologies: HTML5, CSS3, JavaScript, Bootstrap.

Nadiya Brand — Afghan Fashion Website

A responsive fashion brand website designed to present products and brand identity with an elegant, mobile-friendly layout.

Technologies: HTML5, CSS3, JavaScript, Bootstrap.

Calculator Project

An interactive calculator built with vanilla JavaScript, focused on DOM manipulation, event handling, and clean UI logic.

Technologies: HTML5, CSS3, JavaScript.

DOM & Event-Driven JavaScript Projects

A set of small applications practicing DOM traversal, event listeners, and dynamic content updates using vanilla JavaScript.

Technologies: HTML5, CSS3, JavaScript.

MyPatientHUB — Hospital Patient Portal

A React single-page rebuild of a multi-page hospital patient portal, featuring a sign-in flow, an interactive dashboard with charts and a live map, and searchable find-a-doctor and find-a-clinic pages.

Technologies: React, React Router, JavaScript, Chart.js, Leaflet.js, HTML5, CSS3.
